

## AOL and SHAREPOINT

If you use AOL as your Internet provider, you may experience problems logging in to Sharepoint.

To work around this try the following:

Open AOL and then minimize the browser.

Go to your Start menu and find Internet Explorer and open it.

Type the URL: [studentportal.vbschools.com/students/#####](http://studentportal.vbschools.com/students/#####) (your student ID #) in the Address box.

Log in with your student name and password at the authentication screen.
